

HAELOK® The system.

HAELOK® is the leading, pure metal to metal press fitting connection system for the industry, energy technology, district heating and technical oil and gas.

The high-performance compression fittings are designed for extremely high pressures and temperatures as well as a fast and secure press connection without sealing elements and welding. The own developed press tools guarantee the same quality of each individual press connection in existing or new systems at all times. A perfect connection in a few seconds.

HAELOK®
Inventor. Generator. Trendsetter.

HAELOK® Brand & company.

HAELOK® stands for a strong brand and innovative company. The global company based in Zurich, Switzerland, is considered to be the world's leading system provider and the engine of technological progress in the field of pipe connection without welding and elastomer seals.
